## Alamo

### Leather Category VI

- Natural, open-pored leather with a transparent wax finish on the surface.
- South German heavy bull hides
- Natural and growth characteristics are visible
- Dyed through in large colour drums

### Care & cleaning of aniline leather

- For the care and cleaning of aniline leather, only the special care set developed for this purpose should be used.
- In normal use, regular vacuuming with a non-sharp-edged nozzle or wiping with a cloth moistened with distilled water is sufficient.
- Our aniline leather should be treated quarterly with the care set available from specialist dealers.
