Genua

Genua is a genuine power velour from the Hitex manufacture of Rohleder with the care properties of Q2 products. The colours have a high brilliance. The high pile tends to form a seat reflection due to the material, which emphasises the individual character of the material even more. With 100,000 abrasion cycles, Genua is virtually indestructible and predestined for daily use. Genua is produced without chemical finishes, has been tested for skin compatibility and is suitable for allergy sufferers. Comprehensive cleaning and care instructions are available for Genua.

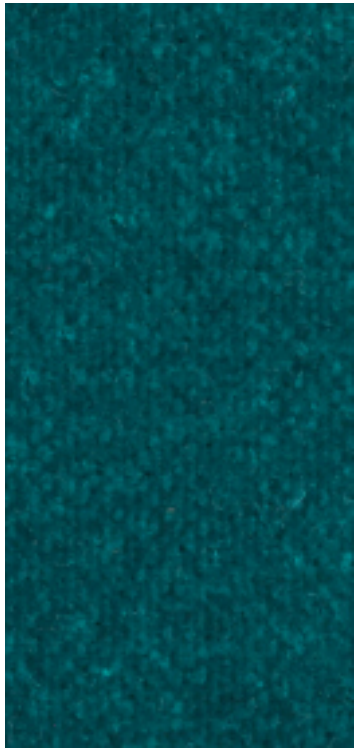

Category F

65 % acrylic, 35 % PL

Abrasion cycles: 100,000

Light resistance: 4

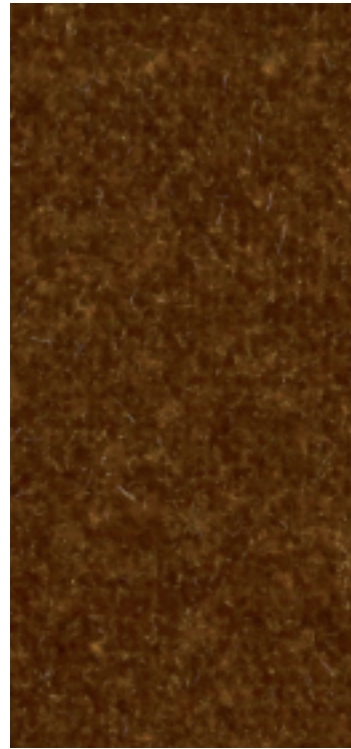

Pilling information: 3 to 4
